Retired Policy

Genetic Testing for CHARGE Syndrome

Policy # 00393

Original Effective Date: 11/20/2013

Retired Policy: 07/01/2024

Genetic Testing for CHARGE Syndrome was retired effective 07/01/2024.

A retired medical policy is no longer active and is not utilized for coverage eligibility determination or claims processing as of the retired date.

This medical policy is being retired as a part of the collaborative partnership with Carelon MBM Genetic Testing Program. Carelon will provide genetic testing management services to ensure enforcement of genetic testing policies effective 07/01/2024.
